

## Why Choose Us?

Simply, we love what we do. We are committed to providing you with the very best equipment and service. We offer you experience that began with my father, a cinematographer, and continues through to this day. Growing up in the industry and learning our craft, my late brother Terry and I started the company over 30 years ago with a passion and a mind set to give our customers the absolute best.

Motion picture camera technology constantly advances through the years and we have participated in many important developments. Our company has grown to acquire a vast inventory of film and digital cameras —which are serviced by the best technicians in the world.

Our well-trained and very loyal staff is here to serve you and treat you like Number One. It doesn't matter if you're a first-time or a long-time customer. We want to help you make the most of your shoot.

Whether it's meeting your budget or the challenge of a custom solution, we are there for you. Once you've used us, you'll want to come back again and again.

Feel free to call me personally at any time.

Sincerely, Denny Clairmont
